

HYPERION ELITE 3

When it comes to racing, the Hyperion Elite 3 is in it to help push your limits. A new QuickKnit upper acts as a breathable second skin, while our unique nitrogen-infused DNA FLASH midsole foam and propulsive carbon fiber plate deliver a super speedy ride. Perfect for distance racing and setting PRs in any competition.

Made to race fast
The combination of a broad midsole and our unique carbon-fiber plate keeps you running in your natural motion path – so you can go faster, for longer.

Fast, propulsive cushioning
Our lightweight nitrogen-infused DNA FLASH midsole returns energy to propel you forward with each step.

New enhanced fit
All-new, lightweight QuickKnit upper feels like a second skin, strategically engineered to maintain breathability while keeping the foot comfortably locked-in.

Our designers consider every detail as they work, fine-tuning everything from the silhouette to every groove of the outsole.

THIS SHOE IS FOR

The Hyperion Elite 3 is built for racing so runners can push their limits in a lightweight, propulsive shoe that helps them set new PRs or win the race.

WHAT'S NEW

- QuickKnit engineered upper offers performance breathability and locks the foot onto the midsole.
- Semi-integrated tongue stays put while allowing natural foot movement as you run for a distraction-free fit.
- Updated collar and heel area provides ultimate locked-in comfort and eliminates irritation.
- New lace catch on the upper keeps laces in place.
- New laces are 100% recycled polyester, engineered to stay locked in place when tied.
