

HYPERION MAX NEW

When speed work calls, the Hyperion Max answers. This trainer is ideal for long, fast workouts. Featuring extra nitrogen-infused DNA FLASH cushioning for protection in a strategically constructed midsole made to help runners train fast.

SPEED
NEUTRAL

Fast transitions
Rapid Roll technology - the unique curving of the heel and toe - propels you forward for effortlessly fast transitions.

More foam, more miles
Substantial midsole foam helps absorb impact on your toughest workouts – so you can take on another hard training session sooner.

Fast, propulsive cushioning
The midsole is configured with nitrogen-infused, lightweight DNA FLASH cushioning that returns energy and adapts to your stride.

SPEED
NEUTRAL SUPPORT

- HYPERION ELITE 3
- HYPERION MAX
- HYPERION TEMPO
- LAUNCH 9
- LAUNCH GTS 9

Our designers consider every detail as they work, fine-tuning everything from the silhouette to every groove of the outsole.

THIS SHOE IS FOR

The Hyperion Max is for runners who want to train their fastest and need performance gear to get them ready for race day.

WHAT'S NEW

- Green Rubber outsole is lightweight yet durable for long-lasting traction, designed with the environment in mind.
- Stretch woven upper and 3D Fit Print provide optimal structure and breathability.

WEAR TESTERS SAY

"I love the cushion and ride; it was my favorite part of the shoe. They feel incredibly snappy and quick, and they got easier to run in as I increased my speed."
